With a twinkle in his eye, this jolly old elf is ready for a Swell Christmas. Using his rosy cheeks and cherry-red nose as inspiration, Santa Claus will make quilts for snug little beds and stockings to be hung by the chimney with care.

The signature Santa Claus quilt is made with a digitally-printed panel stitched to a pieced top. His rosy little cheeks will have you laughing and smiling in spite of yourself. So lay a finger aside of your nose and have a Swell Christmas!
