Sarah Thomas of SARIDITTY

Cleared for takeoff! Let's fly up, up, and away together with High Flight!
Whether you dream of soaring the skies or would rather watch planes
fly overhead, this collection is sure to sweep you off your feet! You'll be
soaring through a soothing array of blues, dignified shades of green, airy
creams and grays, and little pops of magenta on your projects. There's
even a spot for your own inner pilot to sign your logbook entry!

High Flight is so near and dear to my heart, as it's a tribute to my former career as a corporate pilot and a nod to my dear Air Force pilot husband. This collection focuses more on the general aviation realm rather than airliners or military—each airplane silhouette is of a plane I've flown personally...from aerobatic racers to turbo-props. My trademark FMQ doodles are evident in the swirly wind; logbook entries with actual airport identifiers and completed flight maneuvers; and both hero prints...a Low Chart, which is a pilot's road map in the sky, and also my lap board of aeronautical notes. So get your flight plan filed—I can't wait to take off on this trip with you!
