

Chickadee Landing

Kansas Troubles Quilters

After a long, cold Kansas winter, I'm always excited for the first signs of spring. I wait anxiously for the tulips to poke through the last snow, listen for the **chickadee's song**, and savor the warm breeze as the world turns green again. It's a time for renewal and fresh starts. A vegetable garden sketched on a scrap of paper and a trip to the nursery. Blowing bubbles and discovering dandelions with the newest little family member.

My **Chickadee Landing** collection evokes those memories with a sweet little blooming vine print and coordinating florals and geometrics in colors as fresh as springtime.

KT 23105 Chickadee Stars
76" x 92" LC Friendly
