

garden variety

may good things grow

Lella Boutique

The rain has fallen, seeds have been planted, and bees are buzzing as they make their way from flower to flower. Soon the garden will be in full bloom.

There is splendid harmony found in a garden bed, a juxtaposition of beauty and growth mingled with weeds and brambles. Perhaps they are not at odds in the way we might sometimes suppose, but instead, the garden is the balance of a good life. Just as in a real garden, you will find a variety of textures and sun-kissed colors in this collection... along with a few brambles too!

Pick your favorites and see what you can grow in your fabric garden.
