BY GINGERBER

Quaint Cottage is your answer for all things Cottage Core! Think warm vintage wallpaper, calico flower fabrics, streets filled with little romantic houses, hidden closets papered with delicate illustrations, and lace curtains. Quaint Cottage is the perfect fairytale escape for anyone who loves to sit down with their beloved copy of pride and prejudice, light some drippy candles, enjoy the tiny pops and scratches from their record player, and imagine a world where social media doesn't exist. Make your new favorite comfort quilt and create your refuge from the everyday with Quaint Cottage.
