Squaring the Block

- Place the block on the cutting mat
- Place a square ruler on the block, fitting the 6½" lines inside the block.
- Following the 6" line from the top and right side of the ruler (yes, six-inch line), measure 1¾" down from the top and 1¾" in from the right side.
- The 1¾" line on both 6" lines should intersect the seam line on the arc of wedges. These are the MAGIC #s (1¾" on the 6").
- Make sure the 6½" lines of the ruler are still within the edges of the fabric AND the 1¾" lines are on the arc seam line.
- Trim the top and the right side of your block.
- Turn the block 180 degrees and finish squaring the block to 6½"
- Continue until all (12) blocks are trimmed.
